

Instructions for Designing Application

1. Design Tasks Interface (Follow the sample)

Task ID	Task Name	Duration	Start (Date)	Finish (Date)
1	Problem Identification	5 days	10/11/2023	14/11/2023
2	Gather Requirements	6 days	15/11/2023	21/11/2023

2. Design Resource Identification Interface (Follow the sample)

Resource Name	Type (List)	Max (No. of Resource)	St.Rate	Cost/Use
Project Manage	Work	100%	15\$/hr	
Laptop	Cost			1000

3. Design Interface and allocate appropriate Resource to the Task.

Task ID	Task Name	Duration	Start (Date)	Finish (Date)	Resource Name
1	Problem Identification	5 days	10/11/2020	14/11/2020	Project Manager, Laptop

4. Design a Report that Should Display All the tasks (Just View)

Task ID	Task Name	Duration	Start (Date)	Finish (Date)
1	Problem Identification	5 days	10/11/2023	14/11/2023
2	Gather Requirements	6 days	15/11/2023	21/11/2023

5. Design a Report that Should Display All the Resources (Just View)

Resource Name	Type (List)	Max (No. of resources)	St.Rate	Ovt.	Cost/Use
Project Manage	Work	100%	15\$/hr		

6. Design a Report that Should Display All the Tasks + Resources (Just View)

Task ID	Task Name	Duration	Start (Date)	Finish (Date)	Resource Name
1	Problem Identification	5 days	10/11/2023	14/11/2023	Project Manager, Laptop

7. Design a Report that Should Display Total Cost for each task (Just View)

Task ID	Task Name	Duration	Start (Date)	Finish (Date)	Resource Name	Total Cost
1	Problem Identification	5 days	10/11/2023	14/11/2023	Project Manager, Laptop	1600\$

8. Design a Report that Should Display Total Cost for Whole Project (Task Wise) (Just View)

Task ID	Task Name	Duration	Start (Date)	Finish (Date)	Resource Name	Total Cost
1	Problem Identification	5 days	10/11/2023	14/11/2023	Project Manager, Laptop	1600\$
Total Cost						1600\$
